AI Video Analysis Agent
Documentation
Version 1.0.0

Introduction

This document provides an overview of the AI Video Analysis Agent and its capabilities.

System Overview

The application automates video processing, transcription, AI analysis, reporting, and export.

Architecture

The project follows an Agent → Service → Provider architecture for modularity.

Modules

Core modules include Agents, Services, Providers, Utilities, UI, and Workflows.

Workflow

Video Upload → Metadata → Audio → Transcript → Analysis → Chat → Report → Export.

Installation

Install dependencies, configure providers, and launch using Streamlit.

Testing

The project includes 531 passing automated tests using Pytest.

Documentation

Project documentation includes API, Architecture, Workflow, User Guide, Security, FAQ, and more.

Thank You

Thank you for using AI Video Analysis Agent.
Happy Coding!
